### 4. Reading Read the article about Australian families. Are the sentences 'right' (A) or 'wrong' (B)? If there is no information, choose 'doesn't say' (C).

Circle the right answer.

#### AUSTRALIAN FAMILIES

85% of Australians live in big towns or cities. Australian families have usually got a house, two cars, and a computer. The husband and wife work and they get about \$60,000 a year from their jobs.

Australia is a big country but families are small. 23% of Australian houses have got one person in. 69% of houses have got two or more people in. 62% of families have got children. There are usually one or two children in a family. 80% of children live with two parents but about 20% live with one parent.

A lot of children leave home when they are 18 or 19. They go to university or they get a job. They usually live with their friends and they go home to visit their parents at the weekend or during the holidays. Australians usually get married when they are between 24 and 29 years old.

1. 85% of Australian families live in flats.

A right B wrong C doesn't say

2. Australian families are big.

A right B wrong C doesn't say
