## ENGLISH PROVERBS

Complete the following English proverbs by adding **one word** to each sentence.

- |   |                   |
|---|-------------------|
| 1. Better late than .....               | <b>Word bank:</b> |
| 2. You are what you .....               | a) eat            |
| 3. Rome wasn't built in a .....         | b) day            |
| 4. All that glitters is not .....       | c) cover          |
| 5. It is no use crying over spilt ..... | d) never          |
| 6. Don't judge a book by its .....      | e) go             |
| 7. Easy come, easy .....                | f) milk           |
|   | g) gold           |

## POPULAR BRITISH SPORTS

Put the letters in the correct order to find out which sports are popular in Britain.

1. flgo – \_\_\_\_\_
2. nnties – \_\_\_\_\_
3. yrgbu – \_\_\_\_\_
4. ccosre – \_\_\_\_\_
5. ketccir – \_\_\_\_\_
6. sohrgerican – \_\_\_\_\_

## TRAFFIC IN BRITAIN

Choose the most appropriate word to fill each gap.

There was a time when you could cross London slowly and enjoy the city. Nowadays the city has become so ..... (1) by exhaust fumes.

The problem is also worse because of the heavy traffic ..... (2) which block the main roads.

Fortunately, London still has many beautiful ..... (3). Every year many visitors come and see its museums, famous buildings and **special** events.

Hotels can be expensive, so it is often better to rent a small room with a ..... (4).

This also helps visitors see how Londoners really live.

Getting around London is simple because of its ..... (5) transport system. The

Underground can look difficult at first, but **it** is actually safe and easy once you learn. The bus and train services are also great. Travelcard is a special season ..... (6), so you don't have to pay every time you travel.

Unfortunately, in recent years some places near the city ..... (7) have had problems with ..... (8). You can sometimes see ..... (9) people in the streets, and it is not safe to walk alone late at night.

**Options:**

1. a) stained b) polluted c) gassed
2. a) jams b) lights c) crowds
3. a) companies b) bikes c) parks
4. a) hostel b) landlady c) hotel
5. a) private b) public c) straight
6. a) book b) phone c) ticket
7. a) downtown b) centre c) village
8. a) crime b) sightseeing c) view
9. a) rich b) tourists c) homeless

**APRIL FOOL'S DAY**

*Fill in the text with the missing prepositions.*

*on, for, in, of*

April Fool's Day is a fun day when people play tricks and practical jokes ..... (1) each other. It is very popular ..... (2) Britain as well as ..... (3) many countries across Europe.

..... (4) centuries, one ..... (5) the most popular jokes of April Fool's Day has been to send someone out on a "fool's errand". The idea behind this is that in order to succeed, the person on the "fool's errand" has to ask others ..... (6) help on the way. However, everyone else usually recognises the trick before they do.

## **GRAMMAR TEST**

*Choose the correct answer.*

1. That is the man ..... son is a famous actor.  
a) who    b) whose    c) where    d) which
2. They ..... to Disneyland two weeks ago.  
a) went    b) go    c) gone    d) goes
3. If you study hard, you ..... your exams.  
a) passes    b) pass    c) will pass    d) passing
4. You have been to Spain, .....?  
a) have you    b) haven't you    c) you have    d) been you
5. We ..... at the sports centre every Wednesday afternoon.  
a) are usually meeting    b) have usually met    c) usually meet    d) are usually met
6. She often ..... to music when she does the housework.  
a) listens    b) listen    c) listening    d) is listening
7. Greg ..... down, opened the book and began to read.  
a) sat    b) was sitting    c) is sitting    d) will sit
8. Petra ..... read when she was five.  
a) can    b) could    c) will    d) should
9. Next week we ..... my granny.  
a) will visit    b) will visiting    c) visited    d) is visiting
10. Use this bowl. It's ..... than the other one.  
a) big    b) bigger    c) the biggest    d) biggest
11. He ..... this email twice.  
a) wrote    b) has written    c) have written    d) writes
12. Do you mind ..... a few minutes?  
a) wait    b) waits    c) to wait    d) waiting

## READING COMPREHENSION

### The Sun's Big Explosion

On November 11, 2025, the Sun released a very strong solar flare from a large and active sunspot called AR4274. The flare was classified as an X5.1 flare, which means it belonged to one of the most powerful groups of solar eruptions. Scientists explained that the Sun becomes more active every 11 years, and this flare shows that we are now in a period of high solar activity.

The explosion on the Sun also sent out a huge cloud of hot gas and charged particles. This cloud is known as a coronal mass ejection (CME), and it travels through space at very high speed. When a CME is directed toward Earth, it can interact with our planet's magnetic field. Because of this, experts warned that a strong geomagnetic storm was likely to happen after the flare reached Earth.

Geomagnetic storms can affect technology in many ways. They may disturb satellite communication, GPS navigation systems, and even radio signals that pilots and ships sometimes need. In this case, the flare already caused a significant radio blackout, rated R3, over parts of Europe and Africa. During a radio blackout, high-frequency radio waves cannot travel through the atmosphere normally, which makes communication difficult or impossible for a short time.

However, solar storms are not only dangerous — they can also create beautiful natural effects. When the particles from the Sun reach Earth's atmosphere, they can produce bright auroras, also called northern or southern lights. Scientists say that these auroras may appear much farther south than usual, in places where people do not normally see them. Many sky-watchers are excited, because such strong displays of colour in the night sky are rare and can be an amazing experience.

### I. True or False?

1. \_\_\_\_ The solar flare came from a very active part of the Sun.
2. \_\_\_\_ The CME travels slowly through space and takes weeks to reach Earth.
3. \_\_\_\_ Geomagnetic storms can cause problems for GPS systems.
4. \_\_\_\_ The radio blackout affected communication in Asia.
5. \_\_\_\_ Auroras appear when particles from the Sun reach Earth's atmosphere.

### II. Short-Answer Questions (1–3 words)

6. When did the solar flare happen?
7. What is the name of the sunspot that produced the flare?
8. What type of storm did scientists warn about?
9. What level was the radio blackout?
10. What special sky event might appear in unusual places?
